Dewsoft
masterkey

a *business solution* to make you **Competitive**
in todays **global market**

Dewsoft Solutions is a part of a putative Business Group in India engaged in various manufacturing, trading & consulting activities.

With a clear focus on identified industry domains and consistency of delivery, Dewsoft has carved a niche in the IT Solutions and Services Industry.

The Internet, deregulation, globalization, consolidation and the volatility of a global economy and factors in cross-industry convergence & mergers challenges our clients' industries, resulting in new value propositions and moneymaking formulas.

We also understand how to turn them to advantage in an industry with unbounded potential.

We pledge to serve you better and will work hard to earn your confidence. We are, and will be, striving for excellence

e - Business Solutions

At Dewsoft Solutions, when we engineer generic business solutions for a client, we look at it from a business perspective, not a software perspective, and exactly there lies the key. For in doing so, we transgress software development and enter the realm of business application development. It is this clear understanding that has guided us towards success, both for our clients and for us.

“ To create delighted clients and become a globally respected corporation that provides best business solutions by leveraging technology and human assets. ”

vision

“ To create a fair and honest environment in the organization, which would drive our employees, vendors, clients and society at large towards achieving our vision. ”

mission

- We take **Responsibility** in what we deliver.
- We continuously crave for **Excellence**.
- We grow with **Mutual respect** and **Mutual Understanding**.
- We keep on improving our quality by continuous **Innovation**.
- Excellent **Teamwork** is the key of Success.

- In Business time is Money.
- Allotting more time to your core activity will enhance the efficiency & productivity.
- Proper time management can make a revolutionary change in your company's life.

What is ERP?

Enterprise Resource Planning (ERP) is a concept which helps the management to plan and manage the basic functions of their business, such as Finance & Accounting, Manufacturing, Inventory control, Human Resources planning, Sales & Marketing, Customer Relations Management, etc., in order to maximize the profits.

Why to use ERP?

Day to day market territory is increasing. Now whole world has become a single market, and so the market calculations are changed a lot. Today you just don't have to compete local competitors but also face the international competition. In order to do that, you are required to take right decision at right time. Right decision can be taken only if you have right information. To get right information on time, you need to computerize the whole system, where ERP softwares integrates with all the Departments and Functions of the business and extract required Managerial Information System (MIS). It also test accountability, responsibility and communication at each level of the hierarchy.

How to use ERP?

Normally ERP demands change in the working style of the peoples, which peoples don't like. So it is always advisable to implement ERP in a phased manner along with your existing system. Proper manpower training is required for running the ERP software successfully. You just get associated with the DEWSOFT SOLUTIONS PVT. LTD. and everything will be taken care.

**“Winners don't do different things,
They do things differently.”**

-Shiv Kherra

“

For your organization to thrive in a competitive global environment, your **ERP** solution must **streamline** and automate your key business processes while reducing your costs. Our multi-site functionality, **advanced business modeling**, and sophisticated integration capabilities, **Dewsoft Masterkey** has all the critical components to give you a clear vision to move forward f a s t e r .

”

Dewsoft Masterkey is a Enterprise Resources Planning (ERP) tool, which will assist the Management of any organization to take right decisions at right time. Dewsoft Masterkey provides right information at right time, which is normally considered as an impossible task. But Dewsoft Masterkey makes it possible. Dewsoft Masterkey Covers all following aspects of the Business;

What is Dewsoft Masterkey?

We understand the kind of competition you face in today's world, so we are providing you a solution to fight the cutthroat competition. Dewsoft Master Key is not just Enterprise Resource Planning Software but it helps management to take faster and right decisions in all the functions of the management. When you take faster and right decisions you stay one step ahead of the competitors, there lies the key. Latest technology, if used in the right sense, always increases the efficiency level. Our continuous endeavor is to improve the management efficiency level.

Dewsoft solutions has studied the business management process in micro details and it is observed that 50% of any business, deals with documents, which consumes maximum of time. Documentation though an important part of business, is a non-productive exercise for the intellectual human being, whose ability lies in core areas of excellence. Hence a proper document management system in place will reduce the burden on your system and not only make-work easier & quicker, but also save cost. It is this concept of Document Management System, which has been integrated into the Dewsoft Master Key. Hence a systematic approach to the way documents are managed, can transform your company resources to its highest utility and advantage.

Many of the Features, which you will read in the enclosure, are generally applicable to the word ERP, however integrating many other tools & utilities in this package makes it unique, productive, efficient and user friendly.

Dewsoft Solution has facilities for Video Conferencing, Remote access to your server and other software system to emulate terminal at our end to understand the changes and communicate with you. Since the company has successfully implemented project in Turkey & Germany, offshore support is always available with offshore contractual maintenance of system.
